

conservation cottage.

Settled on five acres, just off Little Pine Lake in Perham, the Sturdevant family lives in this energy star certified home. It is a compilation of design from architect Tony Stoll, BHH Partners and Kelli Wegscheid, formerly of BHH Partners, now Harmonious Architecture. It features a spiral staircase, an in-house sound system and catwalk on the second floor that gives you a perfect view of the living room and entryway, as well as a lovely view of outside. Everything about this home is seemingly perfect.

Where: Perham, MN
 Bedrooms: 5
 Bathrooms: 6
 Built: 2010

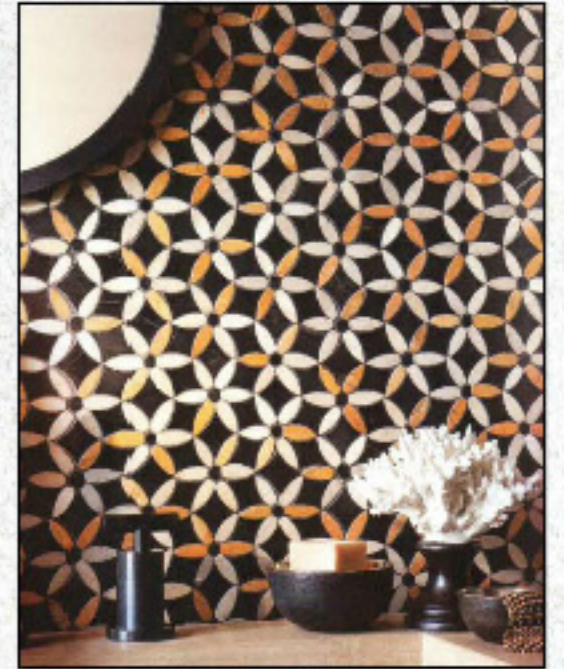

1. The Sturdevant's spiral staircase was a must for their new home.

2. The main floor living room has beautiful windows that allow plenty of natural light to pour in.

Exceptional!
